PROFESSIONAL SUMMARY

Computer Programming for Game Development student with hands-on experience building object-oriented C++ applications. Developing skills in program organization, debugging, input validation, testing, and Git/GitHub workflows. Interested in entry-level opportunities and projects that strengthen software and game development skills.

TECHNICAL SKILLS

Programming: C++, HTML, CSS

Tools: Visual Studio, Git, GitHub, GitHub Pages, Microsoft Office

Concepts: Object-Oriented Programming, Classes & Objects, Vectors, Functions, Input Validation, Exception Handling, Debugging, Testing, Version Control, Branches, Pull Requests

TECHNICAL EXPERIENCE

Medieval Town Manager | C++ Console Application

- Developed an interactive town-management game using C++ and object-oriented programming.
- Implemented resource gathering, villager recruitment, job assignment, housing, Castle progression, taxes, random events, and sickness and recovery systems.
- Refactored menu, display, input, and game-loop responsibilities into a Game class while keeping gameplay systems and town data in the Town class.
- Improved input handling with reusable validation using `std::stoi` and `try/catch`, then tested and debugged interconnected gameplay systems.
- Used GitHub Issues, milestones, a Dev branch, meaningful commits, and pull requests to plan and manage development.

PROJECTS

Medieval Town Manager

A C++ console game where the player gathers resources, recruits and assigns villagers, constructs buildings, manages daily resource needs, and develops a medieval town through an action-based progression system.

Technologies: C++, Visual Studio, Git, GitHub, Object-Oriented Programming

Repository: github.com/JTBaker97/Medieval_Town_Manager

EDUCATION

Full Sail University

Bachelor of Science, Computer Programming for Game Development | Expected January 2028

Relevant study: C++ programming, object-oriented programming, software development, debugging, and version control

Associate Degree, Criminal Justice

ADDITIONAL EXPERIENCE

Military service experience with an emphasis on accountability, teamwork, following established procedures, and completing responsibilities in structured environments.
